Eisenhower to Sponsor Official Modernism Week Event!

Donald Wexler and the Merrill Lynch Building (FREE Lecture)

Please join us SATURDAY, FEBRUARY 15 from 3 to 5 p.m. Merrill Lynch Building 415 South Palm Canyon Drive, Palm Springs, CA
Eisenhower Medical Center is pleased to present a lecture by Lauren Weiss Bricker, PhD, Professor of Architecture, Director of ENV Archives-Special Collections (California State Polytechnic University, Pomona) and Sidney J. Williams, Curator of Architecture and Design, Palm Springs Art Museum (co-authors of the catalog, Steel and Shade: The Architecture of Donald Wexler) on the history of the Palm Springs Merrill Lynch Building, built in 1971 and designed by Donald Wexler.

The Merrill Lynch Building is one of the iconic structures that make up the Palm Springs "Financial District," an area that includes many architecturally significant treasures. Dr. Bricker and Ms. Williams will deliver this lecture on the building's first floor and provide an overview of Donald Wexler and his influence on mid-century architecture and the Palm Springs area. They will focus on the Merrill Lynch Building and the reasons why it is considered one of Mr. Wexler's most revered designs. Eisenhower, the current tenant of the building, is planning a restoration/renovation to be completed in late 2014.
