

Recognition and Commitment

I'm proud and excited that Eisenhower Medical Center was recently named among the Top 5% of all Hospitals in the Nation for Clinical Excellence. Only 269 hospitals in the nation were named Distinguished Hospitals for Clinical Excellence among the nearly 5,000 hospitals ranked by HealthGrades®, a leading independent health care ratings organization.

I have long believed in the value of a strong commitment to Eisenhower Medical Center's mission — to serve the changing healthcare needs of our region by providing excellence in patient care with supportive education and research. Driven by that mission, we challenge ourselves to exceed each and every patient's expectations. We are passionate about our goal — we know that level of excellence is attainable.

"In their Tenth Annual Hospital Quality and Clinical Excellence Study, HealthGrades also recognized Eisenhower Medical Center as Best (#1) in California for Joint Replacements and Best (#1) in California for GI Surgery among many other clinical and specialty excellence recognitions."

Our achievements would not be possible without our outstanding physicians, nurses, technicians, staff and volunteers who dedicate themselves and give their finest efforts to Eisenhower every day. I am grateful for their commitment, and I admire and respect the many ways each person at Eisenhower makes a difference in our patients' lives.

G. Aubrey Serfling
President and Chief Executive Officer
Eisenhower Medical Center
